

# Munibit

# Product & Technology

March 6, 2024

# OpenAI Billing Change

- Must prepurchase credits
  - Instead of charging at month end
    - March 8 deadline
    - Must monitor to avoid failed API calls
  - \$10 added to account
    - A few cents per month so far

# Terms of Service Update

- Extends access after termination
  - From 60 to 90 days
- Amendment strategy
  - Should be rare
  - Avoid changes that require tracking varying obligations to customers
    - Update ToS where feasible to apply to all customers
  - Say no to unreasonable requests
  - Establish file of signed amendments

# Stripe Invoice

- Have been sending to new customers
  - Check, card, or ACH
- Selecting ACH now gives wire transfer instructions
  - Unsure if this is an error from Stripe
  - Found no configuration to help
- Payment links still allow ACH bank account entry
  - Let me know if a customer plans to use ACH

# Payments

- Status
  - Northanger test mode for demos
  - STC Main Foundation, test mode now live
  - Bloomfield Sewage, test mode now live
  - Winfield test mode for reservations
  - Cole Camp live
  - Fennville live
- Preset amounts
  - Expand dropdown width for optional labels
  - Adjust cart layout & email for phones
- Manage Payments
  - Adjust processing fees display
  - Highlight failed payments and click to review

## Get Involved
